NFX Gold Inc.

(an exploration stage company)

Notes to Consolidated Financial Statements

June 30, 2008

(unaudited)

1. Nature of operations

NFX Gold Inc. (the "Company") was incorporated under the laws of Ontario. The Company and its subsidiary operate solely in the exploration and development of mineral properties and extraction of precious metals in Canada.

The Company is in the exploration stage and has not yet determined whether its mineral resource properties contain reserves that are economically recoverable. The continued operations of the Company and the recoverability of amounts shown for mineral resource properties is dependent upon the ability of the Company to obtain financing to complete the exploration and development of its mineral resource properties, the existence of economically recoverable reserves and future profitable production, or alternatively, upon the Company's ability to recover its costs through a disposition of its mineral resource properties.

The amount shown for mineral resource properties does not necessarily represent present or future value. Changes in future conditions could require a material change in the amount recorded for mineral resource properties.

2. Accounting presentation and disclosures

These unaudited consolidated financial statements of the Company have been prepared using accounting policies that are consistent with the policies used in preparing the Company's annual financial statements. Generally accepted accounting principles for interim financial statements do not conform in all respects to the disclosures required for annual financial statements, and accordingly, these consolidated financial statements should be read in conjunction with the annual consolidated financial statements.

Accounting changes

On January 1, 2008, the Company adopted amendments to CICA Handbook Section 1400, "General Standards of Financial Statement Presentation" which includes requirements to assess and disclose an entity's ability to continue as a going concern; disclosure of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern; disclosure of when financial statements are not prepared on a going concern basis, together with the basis on which the financial statements are prepared and the reason why the entity is not regarded as a going concern.

On January 1, 2008, the Company adopted CICA Handbook Section 1535, "Capital Disclosures" which requires disclosure of qualitative information about its objectives, policies and processes for managing capital; disclosure of quantitative data about what is regarded as capital; and disclosure of compliance with any externally imposed capital requirements and the consequences of such non-compliance.

On January 1, 2008, the Company adopted CICA Handbook Section 3862, "Financial Instruments – Disclosures" and Section 3863, "Financial Instruments – Presentation" which requires disclosures to enable users to evaluate the significance of financial instruments on the entity's financial position and performance, and the nature and extent of risks arising from financial instruments and non-financial derivatives.

Beyond additional disclosure, the adoption of these new accounting standards did not have an effect on the Company's financial statements.

Future accounting changes

On January 1, 2009, the Company will adopt CICA Handbook Section 3031, "Inventories", which will replace Section 3030. The new standard requires that inventories be measured at the lower of cost and the net realizable value, provides guidelines on determining cost, prohibits the use of the last-in, first-out method (LIFO) and requires the reversal of a previous write-down when the value of inventories increases.

On January 1, 2009, the Company will adopt CICA Handbook Section 3064, "Goodwill and Intangible Assets" which will replace Section 3062. The new standard establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new standard also provides guidance for the treatment of pre-production and start-up costs and requires that these costs be expensed as incurred. Concurrent with the introduction of this standard, the CICA withdrew EIC27, Revenues and Expenses during the pre-operating period.

The Company is currently assessing the impact of these new accounting standards on its financial statements.

3. Marketable securities

Marketable securities include the following investments in related parties:

	March 31, 2008		December 31, 2007	
	Cost \$	Fair value \$	Cost \$	Fair value \$
Eloro Resources Ltd. ("Eloro")	870,429	643,073	851,879	776,768
Northfield Metals Inc. ("Northfield")	18,300	18,300	18,300	18,300

Three directors of the Company are also directors of Eloro and two directors of the Company are also directors of Northfield.

4. Mineral resource properties

Property	December 31, 2007 \$	Acquisition costs \$	Exploration \$	June 30, 2008 \$

Kirkland Wright Properties

In accordance the terms of the agreement under which the Company acquired its 100% interest in the Kirkland Wright Properties, the Company issued 20,000 common shares of Company with a value of \$10,400 to the vendor leaving 10,000 common shares to be issued by May 8, 2009.

Cheminis and Barber Larder

Pursuant to an option and joint venture agreement, Maximus Ventures Ltd. ("Maximus") completed exploration expenditures of \$6,000,000 on June 30, 2008 and acquired a 60% interest of the Company's interest in the Cheminis property and a 45% interest in the Company's Barber Larder property. The Company retains a 40% interest and 55% interest in the respective properties.

5. Share capital

Share capital consists of the following issued and outstanding common shares:

	Number of shares	Amount \$
Balance, December 31, 2006	48,633,902	15,927,891
Issued for cash:

Share issue costs	—	(58,208)
Balance, December 31, 2007	52,871,402	17,184,986
Issued for cash:		
Exercise of warrants	225,600	69,899
Issued as payment for:		
Mineral resource properties (note 4)		
Kirkland Wright	20,000	10,400
Fair value assigned to exercise of warrants	—	26,399
Future income taxes on renunciation of flow-through expenditures	—	(252,000)
Balance, June 30, 2008	53,117,002	17,039,684

Stock options

Under a fixed stock option plan, the Company may grant options to its employees for up to 10,595,000 common shares (December 31, 2007 – 9,200,000). The exercise price of each option shall not be less than the closing price of the Company's common shares on the TSX Venture Exchange on the last trading day immediately preceding the date of grant of the option, less the applicable discount permitted by the TSX Venture Exchange. The option period for each option shall not exceed 5 years. Options granted vest immediately. As at June 30, 2008, there were 767,500 options available to be granted under the stock option plan (December 31, 2007 – 772,500).

On November 9, 2007, the Company granted 1,400,000 stock options entitling the holder to purchase one common share for \$0.80 until November 9, 2012. The grant required shareholder approval of an increase to the number of stock options available to be granted under the stock plan and those stock options are deemed not to be granted until approval is obtained. On June 27, 2008, the required approval was obtained. The fair value of \$944,000 for the options granted was determined using the Black-Scholes option pricing model with the following assumptions:

Risk-free interest rate	4.05%
Expected volatility	121%
Expected life of options	5 years
Expected dividend yield	0%

A summary of the Company's fixed stock option plan is presented below:

	Number of options	Weighted- average exercise price
Outstanding, December 31, 2006	1,225,000	1.50
Granted	2,725,000	0.36

6. Future income tax recovery

During the year ended December 31, 2007, the Company issued \$700,000 of flow-through common shares pursuant to the Income Tax Act (Canada). On February 28, 2008, the deductions for income tax purposes of the related expenditures were renounced to the subscribers of the flow-through shares. Share capital was reduced and future income tax liability was increased by \$252,000, representing the income tax benefits the expenditures renounced by the Company to the subscribers. However, since the Company had unrecorded loss carryforwards and income tax pools in excess of book value available for deduction, the Company recorded a recovery of future income taxes of \$252,000.

7. Related party transactions

For the 6 months ended June 30, 2008, consulting fees includes \$93,000 (2007 – \$115,500) expensed to companies controlled by two directors and management of the Company.

Receivables included no amount (December 31, 2007 – \$25,000) due from Champion Minerals Inc. ("Champion"). Three directors of the Company are also directors of the Champion.

These transactions were in the normal course of business and are recorded at an exchange value established and agreed upon by the related parties.

8. Capital disclosures

Capital of the Company consists of the components of shareholders' equity. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to explore and develop its mineral resource properties for the benefit of its shareholders.

As the Company is in the exploration stage, its principal source of capital is from the issue of common shares. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that consider various factors, including successful capital deployment and general industry conditions.

9. Financial instruments and risk management

Fair value

The carrying value of cash, receivables, accounts payable and accrued liabilities approximates fair value due to the short-term nature of these financial instruments. Marketable securities are recorded at fair value.

The Company's financial instruments are exposed to certain financial risks, including market risk, currency risk, credit risk, liquidity risk interest rate risk and commodity price risk.

Market risk

Market risk arises from the possibility that changes in market prices will affect the value of financial instruments. The Company is exposed to fair value fluctuations on its marketable securities.

Currency risk

As the majority of the Company's expenditures are in Canadian dollars, the Company limits its exposure to currency risk by maintaining its cash and cash equivalents in Canadian dollars.

Credit risk

Credit risk is the risk of a loss if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's limits its exposure to credit risk by holding its cash in deposits with high credit quality Canadian financial institutions.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company manages its liquidity risk through the management of its capital structure as outlined in note 8.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk due to the short-term nature of its financial instruments.

Commodity price risk

The Company is exposed to commodity price risk with respect to uranium prices. A significant decline in uranium prices may affect the Company's ability to obtain capital for the exploration and development of its mineral resource property.

10. Subsequent event**Plan of arrangement with Maximus Ventures Ltd.**

On July 28, 2008, the Company entered into a definitive arrangement agreement (the "Arrangement Agreement") with Maximus Ventures Ltd. ("Maximus") providing for the acquisition by the Company of all outstanding common shares of Maximus in consideration of which each shareholder of Maximus will receive one common share of the Company for each common share of Maximus pursuant to a plan of arrangement under the Business Corporations Act (British Columbia) (the "Arrangement"). Based on the share exchange ratio, the Company's shareholders and the Maximus shareholders will own approximately 42% and 58%, respectively, of the combined common shares outstanding. Under the terms of the Arrangement, each holder of a Maximus option will receive a replacement option to acquire one common share of the Company and each holder of a Maximus warrant will receive, upon subsequent exercise of each warrant, one common share of the Company. The boards of directors of each of the Company and Maximus have approved the Arrangement and the Arrangement Agreement. The Company will hold a special meeting of its shareholders to consider, among other things, the issuance of shares to the Maximus shareholders as consideration for the Arrangement. The Arrangement must be approved by two-thirds of the votes cast by shareholders present and voting at the special meeting of Maximus shareholders called to consider the Arrangement. The Company and Maximus have provided notice of, and expect to hold, their respective shareholder meetings on September 11, 2008.

The Arrangement is subject to the approval of the Supreme Court of British Columbia, the TSX Venture Exchange and all applicable regulatory authorities. Completion of the Arrangement is further subject to additional conditions set out in the Arrangement Agreement. The Company and Maximus expect to close the transaction on or about September 16, 2008. The Arrangement Agreement provides for a mutual expense reimbursement fee of \$250,000 if the Arrangement is not completed in certain circumstances.
